

## **OLD DUNNINGS MILL**

If you love nostalgia and all that is authentically British, the charming white-weather boarded Old Mill is for you. As the name discloses, this rambling old place tracks its heritage to a 16th-century watermill, which is still in working order today and is a delightful reminder of yesteryear. Beautifully integrating the past with the present, there is a well-maintained heated patio with decking that straddles the mill stream, creating a lovely setting for dining outside.

Inside you will uncover a wealth of solid oak beams and characteristic wooden flooring that preserves the Old Mill's illustrious past. Two open fires warm customers on a winter's night, and that coupled with heart-warming staff, a cozy and relaxed atmosphere always prevails.

Food ranges from traditional pub favorites to modern gastro dishes, which will more than satisfy the palate of all who choose to eat here. The pub serves a great selection of well-renowned and award-winning Harveys cask ales as well as an extensive wine list.
